English Language

Our English programmes are designed for students who need to improve their English language skills in order to study an academic course. There are a number of programmes to suit your needs.

Why choose an English language programme at Waikato Pathways College?

The Academic English programme provides direct entry to degree study without the need for further IELTS testing. The General English programme allows you to study as long as you need, with part-time options available. Both English programmes offer flexible intakes, with multiple points of entry during the year.

Our qualified, experienced, and caring teachers foster a supportive and personalised learning environment, with a maximum of 22 students per class, giving you more individualised attention. You will be taught on the University of Waikato main campus where you have the same access to the services and facilities as degree-level students.

Academic English

The Academic English programme focuses on maximising your progress in each of the four core English skills – speaking, writing, reading, and listening. You will also learn study skills to help you learn faster with greater confidence and prepare you for study at the University.

As a full-time student, your core programme will be 20 hours per week plus an afternoon elective twice a week. A range of electives are available for students to personalise their programmes.

Successful completion of levels 6, 7 or 8 will provide direct entry to most university programmes.
