Although every reasonable effort is made to ensure accuracy, the information in this document is provided as a general guide only for students and is subject to change. All students enrolling at AUT should consult its official document, the AUT Calendar, which is available online at www.aut.ac.nz/calendar to ensure that they are aware of and comply with all regulations, requirements and policies.

The information contained in this prospectus was correct at the time of print, May 2018.

AUT creates graduates who are world ready, not just career ready. Curiosity, creativity, connection and collaboration are the new global currency. That’s why they’re at the core of our teaching philosophy to ensure our students thrive in this world of rapid technological change. We’re proudly and uniquely Kiwi with a firmly global perspective. That’s the outlook and ambition we give our students, whether they choose to go on to live in New Zealand or the 80 different countries our alumni now call home.
Welcome to Auckland University of Technology.

More than 29,000 students from 150 countries study at AUT across our three campuses in Auckland’s central business district, on the North Shore and in Manukau, making us one of the largest universities in New Zealand.

AUT is ranked in the top 2% of universities in the world and 15th in the world for international outlook. 15 of our subject areas are world-ranked and we are rated a 5-star university by rankings agency QS.

At AUT we aim to provide our students with exceptional learning experiences that combine the best of digital resources and technologies with the best teaching techniques and practice. Our students learn in an engaging environment which encourages them to participate and develop their own opinions, to challenge and be challenged, and to gain knowledge and learn how to apply it in real situations. Students are connected to industry and business through work placements, internships and entrepreneurial programmes, and engage with our communities through volunteering and leadership initiatives.

AUT has more than 950 doctoral students and more than 60 research institutes and centres. We undertake international research in biotechnology, epidemiology, addictions and rehabilitation, astronomy, artificial intelligence, big data, human nutrition and metabolism, communications and economics, amongst others, and have award-winning academics in these fields.

I hope this prospectus provides you with some useful information about AUT. I look forward to welcoming you to our university.

Derek McCormack

“While I was at AUT, I was part of the drama club and the debating club, went on a student exchange to Denmark, was a finalist at AUT’s entrepreneurship competition together with my brother, and I also got to attend the Kea World Class New Zealand Awards. All of those events meant I got to meet some awesome and inspiring people.”

Michael Lough
Bachelor of Business and Bachelor of Communication Studies conjoint programmes

“I think that AUT recognises the changing needs of employers and is preparing its students for that. One example of this is the AUT Edge Award, which enables students to develop the C skills that are highly sought after by employers – collaboration, co-operation, community, curiosity, communication and creativity. This ensures that AUT graduates are well-rounded when they finish university.”

Amritpal Kaur
Bachelor of Engineering (Honours) in Mechatronics Engineering

“I earned an internationally ranked degree, worked with professional athletes, learned from some of the most prestigious professors in the world, travelled and lived in a new country that’s rich in culture and heritage, and met some of the greatest friends that I could ask for. Most people only ever dream of these things, but I got to live them thanks to AUT.”

Scott R Brown
USA
Doctor of Philosophy – Sport and Recreation

“Coming to AUT from little old Hawke’s Bay, at first I was afraid that starting my new journey in a different city would be overwhelming. But everyone was extremely welcoming and I quickly became involved in all the activities on offer.”

Brooke Hurndell
Ngāti Kahungunu ki Wairoa
Bachelor of Communication Studies in Public Relations

“Studying at AUT is the best choice I ever made, and I would definitely recommend the Master of Engineering. It’s a great choice for Chinese students. I also love that AUT has a Chinese Centre to support Chinese-speaking students, as well as language courses for students with lower IELTS grades.”

Xiaoyue (Eviv) Hu
China
Master of Engineering

“AUT seemed like the place that would help me if I needed it, without me even having to ask. For someone who was travelling almost 12,000 kilometres to a new home, this was a strong form of reassurance. The staff at AUT are absolutely phenomenal, and every paper I took was backed up by support from the library, academic counsellors and the various workshops offered.”

Sagorika Datta
India
Master of Computer and Information Sciences
Tracking the health of our environment is more critical than it’s ever been, and AUT researchers are pioneering the use of drones and unmanned aerial vehicles (UAVs) to gather this vital data. Geospatial scientist and AUT Associate Professor Dr Barbara Bollard says she and her team are using new and developing technologies to answer longstanding conservation questions.

“The use of drones in conservation and ecological research is a game changer. We can use drones to map critical habitats, monitor invasive and threatened species, look at coastal and marine ecosystems, and record the distribution and abundance of marine mammals for spatial conservation planning.”

For ecologists, drones and UAVs have several important advantages over other data-gathering methods.

“These are zero-harm research tools. We’re often trying to survey remote and vulnerable ecosystems, and by employing drones we can access and map these environments much more easily without putting any extra stress on the habitats we are investigating.”

Drones are also vastly more efficient.

“In a single day one of our UAV teams can map 100 hectares, collecting thousands of images and invaluable data. Before we started using UAVs that same area could have taken a month to survey, or it might have just been deemed too hard or too expensive.”

Barbara and her team are involved in projects all over New Zealand and the world. In Antarctica AUT researchers have used UAVs to collect a world-first, high-quality data set so they can monitor changes in the environment in the future. In Africa they have been part of a project mapping threatened desert ecosystems and in Australia they are working with indigenous Australian communities to map their native title lands and build a catalogue of sacred sites.

And now AUT researchers are adding extra layers of innovation. Having further developed their UAV fleet, they are returning to Antarctica to map several Antarctic Specially Protected Areas (ASPs), with bespoke technology and all new capability. They are also using some of the drone-captured data from their various conservation research projects to create virtual reality (VR) experiences.

HIGH FLYERS IN ECOLOGY RESEARCH
Anyone with visions of postgraduate students shut away in offices, writing lengthy dissertations for a readership of one, should talk to Master of Creative Technologies alumnus Alejandro Davila.

Alejandro’s postgraduate project, The Green Fairy, saw him create New Zealand’s first virtual reality (VR) movie and attract funding from the New Zealand Film Commission and NZ on Air for an augmented reality (AR) animated series.

As for his postgraduate ‘office’, at AUT most of Alejandro’s time was spent at Colab, a collaborative teaching and learning space where design and creative technologies researchers, students and creative partners can innovate together.

“Colab provided a very open environment to collaborate on my project. I loved being able to access the motion capture room to experiment as much as I wanted for my project.

“I was exposed to an environment where students around me were also working on innovating cutting-edge technology, which kept me on my toes, wanting to take things further.”

Beyond the creative support and technology he had access to during his studies, Alejandro says AUT really cultivated his business skills.

Through the University’s CO.STARTERS programme, Alejandro was able to develop a business model to wrap around his Green Fairy prototype, which was already attracting commercial interest following the trial of his VR film at Auckland Libraries, Motat and Westfield malls around New Zealand.

“CO.STARTERS helped me understand that the prototype I built at Colab, the first of its kind in New Zealand, was the perfect tool to demonstrate our team’s capabilities to corporate clients.

“I was able to create a business model around this and learn how to package it in a way that helped me build a customer profile for my target audience.”

With his business plan in place, Alejandro brought together a team of AUT graduates and formed his own company, CONICAL Interactive Studios, which has multiple projects in the pipeline including a TVNZ-distribution deal for the Green Fairy AR animated series and an AR children’s book.
Deciding what you want to do for a career can seem like a daunting task but for Simon Waters it all clicked when he chose to study the Bachelor of Creative Technologies.

“When I was looking at my study options after school I knew I wanted to do something within the realm of technology, but beyond that it was a bit of a mystery. When I came across AUT’s creative technologies degree it appealed because it let you explore different areas.”

Instead of lectures and classrooms, students on the Bachelor of Creative Technologies programme spend most of their time working on a series of different studio-based projects with input from AUT staff and industry partners.

“You’re introduced to all these different disciplines and then you work towards your own projects. Some people do film, some do music, some do web apps, some people do robotics and gaming, and each person sort of finds their own way. I’ve always been more of a practical, hands-on learner, so the degree’s studio-based projects were perfect for me. We were also taught a lot about creative thinking processes, which has been really valuable.”

Through the degree Simon discovered his interest in computing and coding and teamed up with another student to create a ‘heads-up display’ helmet attachment for motorcyclists.

It allows riders to see their speed, distance and navigation details in an unobtrusive display in the periphery of their vision – without taking their eyes off the road.

After further development, the heads-up display now features a novel application of augmented reality and is one part of the technology driving Kiwi start-up company REYEDR, which was named as a finalist in the 2017 NZ Innovation Awards and winner of Display Component of the Year in the US SID Awards.

Since graduating in 2015, Simon has balanced full-time work with his role as creative & community manager for REYEDR.

“We’ve now got our second prototype ready and we’ve got all the manufacturers lined up and ready to produce our first saleable product. We’re expecting to launch our product later this year.”
A massive, global scientific project is underway to build a giant radio telescope capable of looking deep into space and answering important questions about the origins of the universe. And AUT has a critical role in this project. AUT is leading New Zealand’s contribution to the Square Kilometre Array (SKA) project and spearheads the team of researchers charged with designing a computing system that can process the vast quantities of data that will flow from the telescope once it is up and running in 2024.

Dr Andrew Ensor, director of AUT’s High Performance Computing Research Lab and director of the NZ SKA Alliance, says to process the volume of data produced by the telescope (which will actually be thousands of dishes with a collective area of one square kilometre) his team needs to design a system that is four to five times more powerful than the world’s best supercomputers right now. And the system needs to be capable of running 24/7.

“This is the biggest big data project in the world and it brings with it a lot of challenges that have to be solved.”

Andrew says these challenges come with massive opportunities for AUT and its students. “We’re working with incredibly talented people from around the world and we’re getting input from industry and big multinationals who recognise the importance of the project.”

Master of Computer and Information Sciences student Adam Campbell has been able to work alongside Andrew and the wider SKA team at AUT and his thesis research could end up delivering improved data processing for the SKA computing.

“The algorithm I’m working on could improve the speed and precision of part of the SKA imaging pipeline and it could also reduce the amount of power required for that part of the process,” Adam says.

“When I came to AUT I never imagined that I would have an opportunity to contribute to the world’s largest science project. It’s an honour and I would love to see my work benefit the SKA and future research in this area.”
Graduating with a Bachelor of Business majoring in International Business and Marketing is impressive, but leaving university having founded your own company is even more satisfying.

AUT alumna Kamya Ghose paired her own difficult life experiences with insights from her degree to create Queen Zaria, a company that develops attractive mastectomy bras for cancer patients and those in recovery.

Kamya was shocked when she was diagnosed with a type of breast cancer at just 23 years of age. To beat the cancer she underwent a mastectomy, but she says coming to terms with losing a breast was made much harder by the lack of lingerie options available to her after surgery.

“When I went lingerie shopping there was nothing available for someone like me who wanted to feel feminine and needed a bra that could hold a prosthesis,” she says.

“Feeling good about yourself again is a really important part of recovery. Wearing nice lingerie is part of that. With Queen Zaria, we’re aiming to produce not just a product but also a feeling.”

Aside from the knowledge and skills she gained from her studies, Kamya says AUT helped her get her business off the ground by giving her access to the CO.STARTERS programme for aspiring entrepreneurs and the AUT Venture Fund Kickstart Competition.

“Through CO.STARTERS I learned about all aspects of starting and running a business and was challenged to think about what would and wouldn’t work for my business,” Kamya says. “My AUT lecturers have also been incredibly supportive throughout the whole process.”

Queen Zaria has completed its first pre-production run with its Chinese manufacturer and is waiting for the second sample.

“We’re discussing opportunities to make our brand widely available in different parts of the world,” Kamya says.

“We want to help women feel confident and empowered in their own skin.”
After completing her Master of Science at Canada’s McMaster University, one of the reasons PhD candidate Ashley Gluchowski was drawn to AUT for her doctoral studies was the knowledge she could tap into the expertise and world-class sports training and performance equipment at AUT Millennium. It’s a decision that has paid off. Being based at AUT Millennium has given her access to incredible facilities which have underpinned her research on the effects of eccentric strength training in older adults.

“The facilities at AUT Millennium are first class. The strength and conditioning laboratory has everything I need to carry out quality research, whether it be clinical or practical in nature. Our participants love the dedicated space, which has contributed to their commitment to the programme over the course of my research.”

Ashley’s research has already yielded impressive results, showing that older adults not only tolerate, but thrive on heavy load resistance training. “Older adults are still able to increase their strength, bone density, muscle mass, functional capacity and decrease their fasting plasma glucose, insulin, bad cholesterol and inflammation as they age.”

For Ashley the greatest sense of achievement has come from being able to use her research findings to make a difference. “As a result of my research, I founded the Active Ageing Clinic at AUT Millennium, a twice-weekly strength and conditioning session that puts our research findings into immediate action.”

Aside from offering access to world-class facilities, Ashley says being based at AUT Millennium meant she was surrounded by like-minded researchers and motivated by the staff and students who were collecting their own unique research data on a daily basis. “AUT really supports you to research what you’re interested in. The interconnected community of researchers at AUT Millennium translates into networks that make almost everyone accessible.”
For students to successfully learn and innovate they need the right environment. AUT is committed to providing teaching and learning spaces that cultivate collaboration, research and innovation.

Each time AUT develops new or existing facilities on one of its three campuses in Auckland – the City, North and South Campus – the focus is on delivering contemporary, adaptable spaces that encourage students and researchers from different disciplines to come together.

AUT’s success in creating transformational educational spaces has been recognised with a five-star ranking for teaching and facilities, awarded by the world university rankings organisation QS. The South Campus’ newest building, Mana Hauora, nested the university three awards at the NZIA Auckland Regional Awards and an excellence at the 2017 Property Council Awards, and firmly established its reputation as an innovative teaching and learning space.

One of AUT’s current projects also speaks to its overarching philosophy of building flexible, future-proofed teaching and learning spaces.

The new Engineering, Technology and Design precinct has employed sustainable design and construction practices and the 12-storey building at its centre has been developed so it can be used as an education tool, with glass walls for the plantrooms and exposed building services and structural connections for students to study. The building also includes a ground-source heat recovery system to heat and cool spaces.

Preparing students to take advantage of future opportunities also means putting the right technology in their hands.

AUT’s specialist facilities ensure students have access to the latest industry-leading technology, including New Zealand’s only radio astronomy observatory, the country’s most advanced additive manufacturing centre with state-of-the-art equipment capable of 3D printing in plastics and metals, top quality video and motion capture studios, a hi-tech textile design laboratory, and world-class health research and high performance equipment.
Plan your future career
The AUT Employability and Careers team helps you plan in advance for your future career by developing job search and interview skills, while building your personal brand and networking skills. We also support students into AUT Internz, an in-house agency, that pairs students with paid internships and employers looking to recruit AUT graduates.

A launchpad for entrepreneurs
At AUT, the best place for aspiring entrepreneurs is CO.STARTERS@AUT. This nine-week programme helps you turn your entrepreneurial ideas into a viable business.

See the world before you graduate
An international student exchange offers an amazing opportunity to study overseas as part of your degree. Study for a semester or a year at one of our partner universities around the world, and immerse yourself in another culture, make lifelong friends and get international experience before you graduate.

Gain an edge on the competition
The AUT Edge Award is designed to challenge, reward and formally acknowledge the ‘C skills’ – collaboration, co-operation, community, curiosity, communication and creativity – gained through your volunteering, leadership and employability activities. The award helps prove to employers that you’re more than your qualification and gives you an extra edge in the competitive marketplace.

AUT INTERNZ CONQUER THE WORLD

New AUT graduates have once-in-a-lifetime opportunities to apply their learning in a global context thanks to the AUT Internz International Scholarship programme. As well as providing a chance to intern with amazing employers in a range of industries, AUT provides scholarships to cover US or Canadian visas, return travel, travel and health insurance and a stipend to support living expenses.

Facebook Creative Shop, Icebreaker, Allbirds, Lululemon, FCB, Paramount Recording Studios, Sundance Institute, the Metropolitan Museum of Art and The Smithsonian are among the many employers welcoming at least one AUT Internz Scholarship recipient each year.

AUT Internz scholarships are only open to NZ citizens.

EMPLOYER COMMENTS

“Your programme must be terrific because these guys have really contributed in a huge way with great ideas, great insight and fun energy.”
Karin Osanger-Birch, Chief Creative Officer, FCB West, San Francisco

“It has been very exciting for Sundance Institute to host Toiroa. I hope that his legacy at Sundance Institute will set a new standard for interns in our organisation because he came to Sundance with such a strong cultural perspective that fed into the larger organisation.”
Bird Runningwater, Director, Native American and Indigenous Program, Sundance Institute, Los Angeles

“Ngahuia brings a really important level of knowledge and expertise because we are caring for collections from the Pacific. So she’s navigating a very important line which is to help the public who visit these galleries to understand that these collections are more than just objects.”
Dr Maia Nuku, Associate Curator for Oceanic Art, The Metropolitan Museum of Art, New York
AUT is a modern and innovative university with endless opportunities and a supportive culture. Studying at AUT is your chance to meet new people and develop lifelong skills, while getting the support you need to succeed at university and beyond.

We’re proactive in enabling students to succeed, and our comprehensive student support services ensure that you have an amazing experience inside and outside the classroom and are prepared for any challenge in front of you.

**Easy to get help**

At AUT, we don’t want anything to get in the way of you enjoying your student experience and achieving your goals. So no matter what the problem, the Student Hub is here to help. You can find a Student Hub on each of our three campuses and our specialist staff can help with anything from enrolment and student ID cards to matters far beyond university like support with visa and immigration matters, StudyLink issues or landlord challenges.

**Settling into university life**

Studying at university can be quite an adjustment. That’s why AUT helps new students transition to university life by delivering a wide-ranging orientation programme at the start of each semester. AUT Orientation is complemented by a fun social programme to help you meet new friends and celebrate the exciting new journey you’re on. Yet Orientation is just one aspect. We also offer activities throughout the semester, designed to equip all students with the skills to succeed in academic study, get around campus, access student support services and embrace university life.

**Finding the right place to live**

Living in AUT student accommodation is a great option; especially if you’re in your first year of study or from outside Auckland. AUT’s self-catered student accommodation is convenient and modern apartment style living, just minutes away from our City or North Campus. You’ll also enjoy an exciting and supportive community with a unique residential life programme. If you don’t choose to live on campus, our accommodation advisor can help you find, apply for and rent private accommodation that suits your needs. You can also get guidance on accommodation costs, contracts, bonds and tenancy issues.

**Getting around**

Whether it’s finding your way to campus or getting around between lectures, AUT offers a range of resources to help you navigate your new environment. AUT has shuttle buses that travel between campuses (including New Zealand’s first electric bus) delivers campus and city tours during Orientation, and provides MazeMaps online, a mapping tool designed to help navigate complex environments and highlight any obstacles for people with accessibility needs.

**Finding the right place to live**

Living in AUT student accommodation is a great option; especially if you’re in your first year of study or from outside Auckland. AUT’s self-catered student accommodation is convenient and modern apartment style living, just minutes away from our City or North Campus. You’ll also enjoy an exciting and supportive community with a unique residential life programme. If you don’t choose to live on campus, our accommodation advisor can help you find, apply for and rent private accommodation that suits your needs. You can also get guidance on accommodation costs, contracts, bonds and tenancy issues.

**We speak your language**

Our students come from 150 countries, so we know that sometimes it’s easier to have things explained in your native language. That’s why many of our student ambassadors and Student Hub staff are multilingual and can clearly explain information if needed. We also have a dedicated AUT Chinese Centre, providing pastoral and academic assistance for Chinese-speaking students.

**Join a gym or sports team**

AUT is New Zealand’s leading sports university, with state-of-the-art sports facilities, on-campus gyms and a huge number of sports teams and events. As an AUT student you can participate in a wide variety of sports, from social on-campus games to elite international competitions. As a part of University Tertiary Sport New Zealand (UTSNZ) you may also have the chance to represent AUT against some of the best student athletes in the country.

**Disability student support & resources**

If you have an impairment, our Disability Support team can support you to participate as fully as you can in learning and student life. We work with students before they start at AUT to help identify their specific needs and ensure they’re set up for success while they’re studying with us. AUT is strongly committed to equity of access and opportunity for students, staff and visitors, and supports the principles of Kia Ōrite: Code of Practice for an inclusive tertiary environment.

**Join the AUT rainbow community**

AUT was the first university to receive the Rainbow Tick, and remains committed to providing a safe and inclusive environment for all students. We offer services and resources for students who identify with diverse sexual orientations, sex and gender identities, including a rainbow student room where you can study and relax, and student groups and networks. We also have a dedicated Rainbow Community Manager, and actively participate in many of the rainbow events in Auckland.
Budget advice and financial support
Our specialist Student Hub advisors offer budget and financial planning advice all year. We know that sometimes things happen and financial stress can impact your academic success. That’s why we offer financial support that ranges from offering grocery or fuel vouchers, to helping with that unexpected bill.

Helping you succeed in your studies
Our library and learning support team offers a wide range of services and resources, and there are digital resources available to develop your academic skills. The Library also runs a range of workshops to help you get the most out of your studies and work smarter, rather than harder. Our extensive peer mentoring programme also enables students to learn from others who have already completed the same paper.

Stay healthy and well
At AUT it’s OK to ask for help. We actively encourage all students to be aware of their own wellness needs – mind, body and spirit. You have access to free or low-cost medical treatment at our full-service medical centres, which provide private and confidential care for a range of issues. We’re also committed to helping you build resilience, mental strength and the skills to manage stress. That’s why all students can get free, confidential counselling sessions and mental health support. Talk to us about any topic – study-related or personal – or join a support group to help you with specific issues, like managing anxiety or going through relationship difficulties.

Representing your interests
The AUT Student Association (AUTSA) exists to advocate and represent the interests of all students attending AUT. The association also publishes the university magazine Debate, and runs social activities during Orientation and throughout the year.

Safe and friendly campuses
We make sure that our students are — and feel — safe, and our friendly security staff are available day and night to help if you have any concerns.

Free access to digital tools and resources
We offer students all the digital tools needed to succeed, including free Wi-Fi on campus, the full Office 365 suite for up to five devices and access to lynda.com, a world-leading online learning platform.

Student ambassadors ready to help
AUT has more than 200 knowledgeable student ambassadors that help support events and activities across AUT. One of their key roles is to help new students as they settle into their studies.

We embrace all faiths
We take a ‘multifaith’ approach by providing spiritual support to students from various beliefs. AUT encourages understanding, tolerance and harmony, respecting everyone’s spiritual views.

“AUT provided us with a safe platform to experiment, ask questions and challenge how we understand spatial design. Towards the end of the first semester I felt that the sky had become the limit. As a freelance scenic artist, I now produce props, models and sets for the film industry. Every project is so different, new and exciting. Soon after I graduated, a fellow AUT spatial design graduate contacted me about a job offer in the Gold Coast to work on the next Marvel/Disney film – Thor: Ragnarok. That has been one of my career highlights so far, and was a very exciting opportunity straight out of university!”

Zammia Weatherall
Freelance Scenic Artist
Bachelor of Design in Spatial Design
AUT's School of Art and Design is ranked in the top 150 worldwide. Our undergraduate and postgraduate programmes cover a range of disciplines and are driven by an exceptional studio culture experience. Our world-class facilities include three galleries, a 3D lab, digital, photographic and moving image facilities (including a motion capture studio), and a textile and design lab. You’ll have the chance to work on national and international projects, often with real industry clients. Our programmes balance creativity, research and conceptual development with theoretical and professional studies.
UNDERGRADUATE STUDY

Certificate in Science and Technology
Duration: 1 year F/T only
Campus: South
Starts: 25 Feb & 15 July 2019

Bachelor of Design
- Communication Design
- Digital Design
- Fashion Design
- Industrial Design
- Spatial Design
- Textile Design
Duration: 3 years F/T, 6 years P/T
Campus: City & South
Starts: 25 Feb 2019

Bachelor of Visual Arts
Duration: 3 years F/T, 6 years P/T
Campus: City
Starts: 25 Feb 2019

POSTGRADUATE STUDY

Bachelor of Art and Design (Honours)
Duration: 1 year F/T only
Campus: City
Starts: 25 Feb 2019

Master of Cultural and Creative Practice
Duration: 1½ years F/T only
Campus: City
Starts: 25 Feb & 15 July 2019

Master of Design
Duration: 1½ years F/T only
Campus: City
Starts: 25 Feb & 15 July 2019

Master of Visual Arts
Duration: 1½ years F/T only
Campus: City
Starts: 25 Feb & 15 July 2019

Master of Philosophy
Duration: 1 year F/T, up to 3 years P/T
Campus: City
Starts: Any time

Doctor of Philosophy
Duration: 3-6 years
Campus: City
Starts: Any time

“At AUT, we had many group projects where we could apply the theory to the real world. For one project, we had to build our own business and then test if we could make any profit from our business idea. Our group decided to create an advertising agency, and I loved being able to build this agency from scratch and then run it, all within only six weeks. I loved this experience so much that my first job after university was in advertising, and I’ve now been working in the marketing and advertising industry for more than eight years.”

Tri Huynh
Vietnam
Digital Planner, Mediaco
Bachelor of Business in Management and Marketing

“The environment at AUT’s School of Art and Design is supportive and encourages creativity. The lecturers are awesome, and it’s great that they come from so many different art practices. My paintings are my interpretation of traditional Māori ideologies. I’ve been lucky enough to have been offered opportunities for my work to sit within the public. These include City Rail Link safety hoardings that will occupy Albert St while the train line is being extended; showing my interpretation of a taniwha. I’ve also collaborated with an artist from another tribe on fence panels at the Manurewa train station that illustrate how Manurewa got its name.”

Alexandra Newman
Ngati Te Ata
Artist
Bachelor of Visual Arts
Our programmes are designed in collaboration with business leaders and experts, and integrate theory with current practice and global trends. Our teaching approach and learning opportunities will help develop your creativity, critical thinking, collaboration, and communication skills, and include internships and applied projects that give you the competitive edge for your career. The AUT Business School and School of Economics are internationally ranked and accredited, and recognised for teaching and research that is transforming business and society. Our alumni are ready to challenge routine thinking and put forward innovative solutions, and they’re shaping successful careers all around the world.
UNDERGRADUATE STUDY

Certificate in Business
Duration ½ year F/T only
Campus City & South
Starts 25 Feb & 15 July 2019

Certificate in Business Studies
Duration ½ year F/T only
Campus City & South
Starts 25 Feb & 15 July 2019

Bachelor of Business
- Accounting
- Economics
- Finance
- Human Resource Management
- Information Systems
- International Business
- Management
- Marketing
- Sport Leadership and Management
Duration 3 years F/T, 6 years P/T
Campus City & South
Starts 25 Feb & 15 July 2019

Bachelor of Business & Bachelor of Communication Studies conjoint programmes
Duration 4 years F/T, up to 8 years P/T
Campus City & South
Starts 25 Feb & 15 July 2019

Bachelor of Business & Bachelor of Science conjoint programmes
Duration 4½ years F/T, up to 9 years P/T
Campus City & South
Starts 25 Feb & 15 July 2019

Bachelor of Business & Bachelor of Health Science conjoint programmes
Duration 4½ years F/T, up to 9 years P/T
Campus City & South
Starts 25 Feb & 15 July 2019

Graduate Certificate in Business
Duration ½ year F/T, 1 year P/T
Campus City
Starts 25 Feb & 15 July 2019

Graduate Diploma in Business
Duration 1 year F/T, 2 years P/T
Campus City
Starts 25 Feb & 15 July 2019

Starts Any time

Doctor of Philosophy
Duration 3-6 years
Campus City & South
Starts Any time

BUSINESS OFFERS SO MANY WAYS TO MAKE A POSITIVE IMPACT. WHEN I FINISHED MY AUT DEGREE, I KNEW I WANTED TO BE IN THE SUSTAINABILITY SPACE. I’VE ALWAYS BEEN INTERESTED IN SOCIAL ENTERPRISE AND THE CONCEPT OF SUSTAINABLE BUSINESS. I WANTED A ROLE WHERE I COULD WORK WITH CORPORATE BUSINESS TO ACHIEVE THE GOALS OF SOCIAL ENTERPRISE AND CHANGE BUSINESS AS USUAL. MY EXPERIENCE AT AUT HAS GIVEN ME THE CONFIDENCE THAT ANCHORS ME, AND I HAD ACCESS TO SO MANY OPPORTUNITIES. I HAD INSPIRING LECTURERS AND MET SO MANY INCREDIBLE PEOPLE WHO ARE STILL MY FRIENDS AND MENTORS TODAY.

Afra Abdeen
Assistant Sustainable Business Manager for South East Asia and Australasia, Unilever, Sydney
Bachelor of Business (Honours)
Bachelor of Arts in Psychology and Bachelor of Business in Marketing conjoint programmes

POSTGRADUATE STUDY

1. Name change, subject to CUAP approval.
2. Health papers offered at the North Campus.

¹ New programme, subject to CUAP approval.

"AUT is a great place to study. The academic staff are really committed to mentoring and collaborating with students, and I appreciate the research infrastructure to support doctoral students. I have ample resources for conducting high-quality research in the field of accounting and, most importantly, I have supportive mentors who have invested in me. With the high-quality research skills and professional networks I’ve developed throughout my time at AUT, I feel totally prepared to pursue my career in academia once I graduate from AUT. I’m grateful for my time as a doctoral student here and would definitely recommend applying to AUT."

Tien Nguyen
Vietnam
Doctor of Philosophy candidate

"When I saw AUT’s creative technologies brochure in the careers room in my secondary school, I immediately thought ‘That’s me’. I love that this degree covers everything—the arts, problem-solving, engineering and technology. I’m passionate about all these things, and in any other degree I would have to choose. Technology allows me to find creative ways to solve problems. My classmates and I are now thinking about starting a creative technologies agency. Creative technologies is a field not many businesses specialise in yet, and by starting our own agency we can offer our skills to benefit other organisations and continue working in a field we love."

Claudine Nalesu
Creative Technologist
Bachelor of Creative Technologies
Creative technologies crosses the boundaries between creative arts, engineering and entrepreneurship. At AUT, you’ll experiment with things like augmented reality, robotics, gaming development tools, e-textiles, electronics and sound engineering within a collaborative project-based studio environment. Your knowledge will be in demand within a wide range of cutting-edge industries. The world is changing fast, and people with imagination, advanced technological knowledge and entrepreneurial skills will be the ones to shape it.

COLAB: CREATIVE TECHNOLOGIES

Entrepreneurial focused degree structure

Mixed discipline degree

Access to high-tech labs network
UNDERGRADUATE STUDY

Bachelor of Creative Technologies
- Duration: 3 years F/T only
- Campus: City
- Starts: 25 Feb 2019

POSTGRADUATE STUDY

Master of Creative Technologies
- Duration: 1½ years F/T, 3 years P/T
- Campus: City
- Starts: 25 Feb 2019

Master of Philosophy
- Duration: 1 year F/T, 3 years P/T
- Campus: City
- Starts: Any time

Doctor of Philosophy
- Duration: 3-6 years
- Campus: City
- Starts: Any time

KEY
- F/T: Full-time
- P/T: Part-time

“I've always had a passion for Africa, and now almost all of my work is based in central and southern Africa. When I'm filming things like gorillas in Rwanda I can’t help thinking how amazing it is that someone is actually paying me to film this. For me, this is a childhood dream come true. One of the things I'm particularly proud of was filming wild dogs and hyenas for National Geographic Channel's Africa's Hunters. Wild dogs are historically difficult to film, and I'm very proud of the footage I've managed to get. I initially wanted to become a war journalist but then realised it wasn't the right choice for me. By my second year at AUT I knew that I wanted to pursue documentary filmmaking.”

Julian Braatvedt
Freelance Camera Operator
Bachelor of Communication Studies in Television and Screen Production

“I had a range of interests in technological, scientific and digital disciplines, and the Bachelor of Creative Technologies provided a way to learn vital industry skills in a way that appealed to me. I loved the fact that our projects were treated more like real work experience than study. AUT has a modern and trendy feel. It’s in central Auckland and is the beating heart of a thriving technological industry, which allows students to be involved in real projects.”

Justin Cramer-Roberts
Junior Digital Designer, .99
Bachelor of Creative Technologies

www.aut.ac.nz/creativetechnologies
Communication in all its forms is central to our lives. It shapes and reflects our view of the changing world. If you love telling stories with words, images and experiences then communication studies at AUT will lead you to rewarding career options across many exciting industries. Our industry standard facilities include well-equipped TV and radio studios, sound and editing suites and a live news media centre. Study with us and you’ll be equipped with transferable skills to prepare you for the next evolution on the media horizon. It’s one of many reasons why our alumni are highly-regarded around the world and regularly win media awards.
UNDERGRADUATE STUDY

Certificate in Communication Studies

- Duration: 1 year F/T only
- Campus: City
- Starts: 25 Feb 2019

Bachelor of Communication Studies

- Duration: 3 years F/T only
- Campus: City
- Starts: 25 Feb & 15 July 2019

Bachelor of Business & Bachelor of Communication Studies conjoint programmes

- Duration: 4 years F/T, up to 8 years P/T
- Campus: City
- Starts: 25 Feb & 15 July 2019

Graduate Diploma in Advertising Creativity

- Duration: 1 year F/T, 2 years P/T
- Campus: City
- Starts: 25 Feb & 15 July 2019

POSTGRADUATE STUDY

Bachelor of Communication Studies (Honours)

- Duration: 1 year F/T, 2 years P/T
- Campus: City
- Starts: 25 Feb & 15 July 2019

Postgraduate Diploma in Communication Studies

- Duration: 1 year F/T, 3 years P/T
- Campus: City
- Starts: 25 Feb & 15 July 2019

Postgraduate Diploma in Brand Communication

- Duration: 1 year F/T, 3 years P/T
- Campus: City
- Starts: 25 Feb & 15 July 2019

Master of Philosophy

- Duration: 1 year F/T, 3 years P/T
- Campus: City
- Starts: Any time

Doctor of Philosophy

- Duration: 3-6 years
- Campus: City
- Starts: Any time

“I had heard that AUT you have more opportunities to talk to your lecturers, but it was much more than that. We had a test before we started our degree and Dr Ross Bernay – the head of the teacher education department – stood at the door, shook our hand and welcomed us in. He addressed me by name and got to know me. It showed that they actually cared who I was. AUT offers an inclusive and culturally responsive environment that I highly recommend.”

Ezra Feau
Year 5 and 6 Teacher,
Puhinui School
Bachelor of Education (Primary Pasifika)
At AUT you’ll find all the support, encouragement and inspiration you’ll need to develop an outstanding career in education. Our programmes focus on academic knowledge and provide you with invaluable practical experience in teaching and education, through work placements in schools or education-related organisations. Our postgraduate and research students work in collaboration with academic staff who are internationally known as experts in the fields of pedagogy, education policy, e-learning and educational leadership.

Expert lecturers in specialist education disciplines and education research

22 weeks of professional practice - many of our students are offered jobs during their placements

### Comments

“During my three-year degree I completed five teaching practicums, including a placement at Northcote Central Kindergarten where I now work. The AUT lecturers were amazing – so supportive, inspiring and knowledgeable. I also made some lifelong friends during my studies and learned not just what it takes to be a great teacher but also a lot about myself. I would say that every paper I took at AUT is relevant to my job and has meant that I’ve been able to hit the ground running.”

Leanne Mato
Ngāti Porou, Whānau a Apanui
Teacher, Northcote Central Kindergarten
Bachelor of Education (Early Childhood Teaching)
The AUT City Campus is in the heart of Auckland and is AUT’s biggest campus. It’s home to our art and design, business and economics, creative technologies, communications, engineering, computer and mathematical sciences; hospitality, languages, law, Māori development, science and social sciences programmes.

“I was motivated by a comment by a blind gamer who said, ‘Nobody makes games for us.’ I did some research, and noticed that while there are games for visually impaired users, most of them are of very poor quality. I wanted to change this. That’s how the Audio Game Hub was born. It initially started as a prototype for my PhD, designed to perform usability studies and evaluate its potential. However, we discovered something amazing – over 50,000 people from around the world were loving it. The Audio Game Hub couldn’t have been created without AUT’s support. It’s a good environment to unlock your creative potential.”

Jarek Beksa
Poland
CEO, Sonnar Interactive Ltd
Doctor of Philosophy candidate
Study engineering, computing or mathematical sciences and play a leading role in the technological, social and economic development of the world today. Our teaching and research staff are among the best in New Zealand and internationally. Our computing, software and engineering programmes have the highest standards in student experience, and our alumni are highly sought-after by employers around the world. With access to outstanding facilities you’ll be equipped to make industry-leading discoveries in collaboration with classmates, research staff and partner organisations.

**Notes:**
- The Maritime Engineering majors are only available to New Zealand citizens.
- New programme, subject to CUAP approval.

### KEY
- **City Campus:** F/T full-time
- **North Campus:** P/T part-time
- **South Campus:**
The North Campus is home to our education, health sciences, and sport and recreation programmes. Just a short shuttle bus trip from our City Campus, the North Campus provides all the facilities you need for a successful university experience.

For me, the highlight is being out in the community to raise awareness of the issue of problem gambling. Talking about what we can do to target this problem in our communities can be challenging but it’s very rewarding when we achieve positive outcomes. I wanted to work in an area that focuses on making a positive contribution to the health and wellbeing of Pacific people. The knowledge I’ve gained from my AUT degree has challenged my way of thinking and taught me to think critically. We had very engaging and inspirational lecturers from the public health sector – they had a wealth of knowledge and were happy to share their experiences with students.”

Therese Lam
Health Promoter, Mapu Maia (Pasifika Team), Problem Gambling Foundation of New Zealand
Bachelor of Health Science in Health Promotion
AUT is New Zealand’s largest and most diverse health education provider. We produce sought-after graduates who enter professions throughout the world and undertake ground-breaking research. Our academic staff and students work to improve our understanding of health and environmental issues, generate new products and technologies, and enhance policy making and professional practice. We have a number of health clinics offering services like physiotherapy, podiatry, oral health, nursing, occupational therapy, psychology and psychotherapy to the public. As a health sciences student, this gives you hands-on experience working with real people.

"AUT focuses on finding your fit in the world. I was passionate about food, but realised I needed to express myself fully and learn as a specialist vegan chef. Transitioning from the classrooms to the AUT kitchens catalysed my desire to understand how to feed the world’s burgeoning populations with limited resources. For the final three semesters of my degree, I was able to be vegan in and out of classes, and adapt each recipe with a vegan lens. I wanted to compete with my classmates to make the most delicious meal in the class and be a top chef. After graduating, I was also lucky enough to receive an AUT Internz International Scholarship and intern at Stanford University, the most vegan-friendly campus in the USA."

Hugo Hughes  
Vegan Chef  
Bachelor of Arts in Culinary Arts

"The calibre of the staff was a highlight of my studies at AUT. The fact that in your tutorials you can have one-on-one teaching with lecturers that are referenced in the academic literature you study in class is amazing and overwhelming. I also appreciated the workplace experience as part of my degree. I spent 10 weeks at Middlemore Hospital’s acute orthopaedic ward. This experience gave me great insight into acute care and taught me so much about injuries, multi-disciplinary teams and the role of an occupational therapist in acute care."

Saadiq Khan  
Vocational Occupational Therapist, Quality Rehabilitation Services  
Bachelor of Health Science (Occupational Therapy)
AUT is ranked in the top 50 in the world for hospitality, so we're the best university in New Zealand to launch your career in this exciting, global industry. With an ever-increasing demand for skilled graduates around the world, hospitality, tourism and events offer outstanding employment opportunities and global prospects for our students. Our industry-standard facilities include two first-class training restaurants, a state-of-the-art culinary demonstration theatre and industry standard professional kitchens. Join us to go anywhere in the world.

“I wanted to do research that has the potential to provide solutions for challenges the tourism industry faces. I chose AUT because it’s home to globally recognised experts in my field, especially in nature-based tourism, tourist behaviour and destination heritage management. AUT is also the home of the New Zealand Tourism Research Institute, which specialises in applied research and consultancy for tourism destinations around the world. My lecturers have been extremely generous in imparting their knowledge and expertise.”

Richard Aquino
Philippines
Doctor of Philosophy candidate
Master of International Tourism Management
AUT South Campus is a vibrant and growing campus located in the heart of Manukau. We offer a wide range of programmes at all levels of study with the convenience of a campus located close to home.

“Once I’d made the decision to study Sign Language interpreting, I instantly knew it was the right one. I enjoyed being part of such a supportive environment, and loved that the classes at AUT were interactive and could be adapted to the needs of Sign Language classes and bringing in interpreters if needed. We had members of the Deaf community come in and chat to our class all the time, and there were social gatherings where we could practise our skills. I also loved that the degree included 50 hours of practicum time. I spent a weekend interpreting at a Deaf youth camp, and also interpreted for Deaf mums at a Plunket group.”

Rebekah Guy
New Zealand Sign Language Interpreter
Bachelor of Arts in New Zealand Sign Language – English Interpreting
The study of language, society and culture can lead you to a rewarding career in many industries. At AUT you'll learn in an interactive environment and enjoy opportunities for international exchanges and crucial industry experience. You can apply your knowledge in areas like intercultural communication, new media, creative writing, translation and interpreting. Our languages programmes are ranked in the top 250 in the world, and our academic staff are research active and internationally known as experts in their fields.

Master of Philosophy
Duration 1 year F/T, 3 years P/T
Campus City
Starts Any time

Doctor of Philosophy
Duration 3-6 years
Campus City
Starts Any time

“Before choosing AUT, I searched online and compared all the universities in New Zealand. I also read reviews and found that AUT was where I wanted to study. As one of New Zealand’s most diverse universities, AUT has enabled me to develop global networks. I’ve enjoyed meeting people from all parts of the world. AUT has good facilities, nice and helpful staff, and full support services for students. Even my little daughter was excited whenever she accompanied me when I was studying in the parents’ room at the AUT library.”

Mega Dwi Febriyani
Indonesia
Language Teacher, Vocational School of Agriculture, West Nusa Tenggara Province, Indonesia
Master of Professional Language Studies

“I went to see an AUT academic about studying translation. She asked me one question and it changed everything. It was: what do you want to do – work with people or sit in an office and work by yourself? I wanted to work with people and so chose interpreting instead of translation. I’m now interpreting for Syrian refugees at the Mangere Refugee Resettlement Centre, and I enjoy helping them adjust to life in New Zealand. I love that the people who interviewed me at the Mangere Refugee Resettlement Centre when I arrived as a refugee in New Zealand now see me as their co-worker.”

Ludy Chakhto
Interpreter, Mangere Refugee Resettlement Centre
Graduate Diploma in Arts in Interpreting

POSTGRADUATE STUDY

postgraduate@aut.ac.nz

www.aut.ac.nz/languageculture
LAW

AUT’s Centre for Refugee Education provides an on-arrival 6-week education programme for resettled refugees starting a new life in New Zealand.

“I knew that I wanted to study law, and I had heard that the AUT Law School is modern and offers programmes that are tailored to what law firms are looking for in university graduates and junior lawyers. That gives the AUT degree an advantage. AUT is a university that adapts with the changing world, keeping its education current and practical, and preparing students well for real-life law work. Because Croftfield Law is a general practice law firm, my job now involves advising clients in all areas of the law, including criminal law, property conveyancing, commercial transactions and immigration. I enjoy the challenge of learning something new every day.”

Samantha Hiew
Barrister and Solicitor, Croftfield Law
Bachelor of Laws
A law degree from AUT prepares you for legal practice and opens doors to a wide range of rewarding careers. If you have a passion for law and social justice, a love of words and language, reading, solving problems, and reasoned and logical arguments then you should consider studying law. Through our interactive workshops you can hone your skills in critical analysis, problem-solving, oral presentations, and mooting, and we often invite legal and judicial practitioners to come in and share their experience with students. Our alumni are employed by top tier law firms, government agencies, and consultancies.

**I was privileged enough to be the first recipient of the AUT Internz International Scholarship to intern at the Sundance Institute in Los Angeles. These prestigious scholarships align AUT students with their relevant industries and professions, both in New Zealand and internationally. I enjoy reading emerging artists’ scripts and understanding how they continued through the Native American and Indigenous Film Program to successfully develop their films. One of the main goals of the programme is to develop the visibility of Native American and Indigenous artists, and supporting indigenous storytelling. This has huge relevance for me and what I want to achieve as an aspiring indigenous filmmaker.”

Toiroa Williams
Te Whakatōhea, Nga’i Tai and Te Whānau-a-Apanui Trainee, Native American and Indigenous Film Programme, Sundance Institute, Los Angeles Master of Arts in Māori Development Bachelor of Communication Studies in Television and Screen Production

“What I love most about having a career in law is that it is very challenging but also varied. I probably wouldn’t be able to complete submissions as efficiently without the practical approach AUT encourages. It was one of the things that attracted me to the AUT law degree. Making new friendships and professional connections is what I enjoyed most about my time at AUT. I also liked that the academic staff are knowledgeable but also very friendly and approachable.”

Phillip Osborne
Barister, Hamlin Law Bachelor of Laws (Honours)
Māori and indigenous development at AUT is at the cutting edge of Māori media, culture, communication and language. Grounded in te ao Māori, our qualifications will prepare you to contribute in diverse ways in media, business, government, community and iwi organisations. Study with us and develop the skills to tell stories that matter to you, your whānau and the world. You’ll have access to our industry-standard equipment and the latest technology to create films, e-books and apps.

It's important to learn more about how marine mammals interact with human activities. For my PhD research, I'm collaborating with Tongan whale-watching tour operators to look at the behaviour of humpback whales during vessel approach and in-water human interactions in Vava'u, Tonga. I'm also involved in the investigation of behavioural responses of dolphins to small UAVs. I've tested this technology in New Zealand and overseas, and I'm fascinated by its potential for different spatial ecology applications. Our aerial video of Bryde's whales feeding near Great Barrier Island, for example, was a big achievement in terms of showcasing to the general public how UAVs can represent a revolutionary tool for behavioural studies on marine mammals.

Lorenzo Fiori
Italy
Doctor of Philosophy candidate
Environmental sustainability, innovative food production, geospatial science and chemical synthesis techniques are some of the key ingredients that will shape the future world we live in. Study science with AUT and you’ll be prepared for a rewarding career in a wide range of industries and professions. Our collaboration with industry means that your study will be highly relevant to your career. Our alumni contribute to scientific innovation and world-leading research in many fields, and are highly sought-after by employers around the world.

---

Lam Chow
Assistant Food Technologist, iMonitor
Bachelor of Science in Food Science

“I always knew I would study a Bachelor of Science, and after researching my options I found that food science strongly resonated with my interests. I chose AUT because it has strong links with the New Zealand food industry. During my studies at AUT, I discovered my passion for food microbiology and, in turn, food safety. The experiments that are part of the coursework always related back to industry applications. The practical labs also encouraged group work with fellow students, giving us an opportunity to interact with people from different walks of life and develop collaboration skills.”

Our Radio Astronomy Observatory in Warkworth is the home of AUT’s 12-metre and 30-metre radio telescopes, which are involved in groundbreaking research with world-leading observatories and space agencies.

“When I travelled on my own through South East Asia and South America, I became extremely aware of my privilege and decided I wanted to advocate for the members of our society whose plights were going unnoticed. Studying the Master of Human Rights at AUT provided me with skills, but more importantly, it gave me the confidence to get involved with my local community and share my knowledge and skills for the causes I care about. The opportunity to talk to inspiring leaders in the field was a real highlight of my experience at AUT. Hearing from people working on the frontline on issues like the living wage campaign helped me see the work come alive.”

Tenisha Kumar
Child Advocate, Shine/Programme Facilitator, Ministry of Justice
Master of Human Rights
When you study the social sciences, you’ll gain an in-depth understanding about how and why people think and behave as they do. If you want to be an advocate for social justice, learn how countries and businesses make decisions, or want to improve the criminal justice system, studying social sciences at AUT is the perfect start. You can focus on conflict resolution, criminology, economics, human rights, psychology or social sciences, or combine two or more fields to develop a unique perspective and skill base for a rewarding career where you can make a difference.
UNDERGRADUATE STUDY

Certificate in Social Sciences
- Duration: 1 year F/T, 2 years P/T
- Campus: City
- Starts: 25 Feb & 15 July 2019

Bachelor of Arts
- Concentrations: Conflict Resolution, Criminology, Economics, Psychology, Social Sciences
- Duration: 3 years F/T, 6 years P/T
- Campus: City
- Starts: 25 Feb & 15 July 2019

Bachelor of Arts & Bachelor of Business conjoint programmes
- Duration: 4 years F/T, up to 9 years P/T
- Campus: City
- Starts: 25 Feb & 15 July 2019

Bachelor of Arts & Bachelor of Computer and Information Sciences conjoint programmes
- Duration: 4 years F/T, up to 8 years P/T
- Campus: City
- Starts: 25 Feb & 15 July 2019

Graduate Certificate in Arts
- Duration: ½ year F/T, up to 2 years P/T
- Campus: City or North
- Starts: 25 Feb & 15 July 2019

Graduate Diploma in Arts
- Duration: 1 year F/T, up to 3 years P/T
- Campus: City or North
- Starts: 25 Feb & 15 July 2019

Bachelor of Arts (Honours)
- Concentrations: Psychology, Social Sciences
- Duration: 1 year F/T, 2 years P/T
- Campus: City
- Starts: 25 Feb & 15 July 2019

Master of Arts
- Concentration: Psychology
- Duration: 2 years F/T, up to 5 years P/T
- Campus: City
- Starts: 25 Feb & 15 July 2019

Master of Human Rights
- Duration: 1 year F/T (including Summer School)
- Campus: City
- Starts: 18 Feb 2019

Master of Philosophy
- Duration: 1 year F/T, 3 years P/T
- Campus: City
- Starts: Any time

Doctor of Philosophy
- Duration: 3–6 years
- Campus: City
- Starts: Any time

POSTGRADUATE STUDY

Graduate Certificate in Arts
- Duration: ½ year F/T, 2 years P/T
- Campus: City
- Starts: 25 Feb & 15 July 2019

Graduate Diploma in Arts

- Duration: 1 year F/T, 3 years P/T
- Campus: City
- Starts: Any time

Doctor of Philosophy
- Duration: 3–6 years
- Campus: City
- Starts: Any time

"I love being outdoors, and I love my job. What I do each day for work, I do on my days off as well. I enjoy a life where I love what I do and rarely feel like I’m working. My time at AUT was great. The Bachelor of Sport and Recreation was right up my alley, and it has led to a great career and sparked a lifelong passion for the outdoors. My classmates and I banded as we went on road trips to complete portions of our study in the great outdoors. My outdoor education lecturers were inspirational and I still use their teachings in my everyday work."

Jake Candy
Teacher of Outdoor Education,
St Joseph’s College, Colo, New South Wales, Australia
Bachelor of Sport and Recreation in Outdoor Education

“Employers are looking for students who are smart, in an academic sense, but who also think about their future career, and go out there and get some experience. The practical experience that was part of my third year was a major highlight for me. My workplace experience really confirmed that criminology was the area I wanted to pursue a career in. It proved that I had chosen the correct path of study. I owe my career to that opportunity, and I consider my successful workplace experience and subsequent job offer the ultimate achievement.”

Joel Harman
Intelligence Analyst, Inland Revenue
Bachelor of Arts in Criminology
Ranked in the top 50 in the world, AUT offers New Zealand’s most advanced sports qualifications. Learn at our state-of-the-art facilities, including AUT Millennium, a high-performance sport and health facility. During your study with us, you’ll be supported by staff who are committed to helping you achieve your highest potential. Our world-class researchers work with leading organisations and athletes to challenge current practices. Many of our staff have been elite athletes, coaches and adventurers, and they all love what they do.

POSTGRADUATE STUDY

“...I’m primarily responsible for managing the strength, conditioning and fitness training of 130 full-time ballet students between the ages of 11 and 16. I work with students on both traditional and functional strength and conditioning for dance, alongside physiotherapists, GPs, sports doctors and artistic staff. On a day-to-day basis I of course use the technical and theoretical underpinnings of my AUT degree in my work with the students. However, I often feel it’s the lessons and values that were instilled in me from the AUT culture – like adaptability, versatility and the importance of never being afraid to face change – that I’m using most to help the industry I’m so passionate about move forward.”

Erin Bowerman
Strength and Conditioning Coach,
The Royal Ballet School (White Lodge), London
Master of Sport and Exercise Science
APPLY EARLY
Places are limited. Submit your application well before the semester starts.

APPLYING FOR 2019
- Semester 1
  - apply by 3 December 2018
- Semester 2
  - apply by 3 May 2019

Some programmes have earlier application dates. Check the AUT website for details.

Applying for the Master of Philosophy (MPhil) and Doctor of Philosophy (PhD)
If you are planning to enrol in a Master of Philosophy (MPhil) or Doctor of Philosophy (PhD) at AUT, email the Graduate Research School

doctoral.and.mphil.admissions@aut.ac.nz

APPLY LATE?
If you have completed your qualifications recently or are unsure of what you want to study, you can apply late.

APPLY LATER?
For more information, visit www.aut.ac.nz/apply

COMPLETE THE APPLICATION FORM
- Apply online
- Indicate your programme(s) of choice and major (if known)

International students can also apply using an AUT approved international agent. For a list of AUT registered agents visit

www.aut.ac.nz/international-agents

SUBMIT YOUR APPLICATION
- We will send you an acknowledgment email which explains how to check the status of your application
- We will contact you if we need more information

WE ASSESS YOUR APPLICATION
- We assess your application to ensure you have met the entry criteria for the programme(s) you are applying for
- We consider your academic history and relevant experience to ensure you can succeed in your programme
- We let you know if your application has been successful

POSSIBLE OUTCOMES
CONFIRMED We would like to offer you a place to study at AUT

PROVISIONAL You have met some of the criteria for entry to your chosen programme of study and we would like to offer you a provisional place to study at AUT. If you don’t meet the rest of the requirements, for example University Entrance, then this offer will be withdrawn

CONDITIONAL You have to meet the conditions and approvals listed in your conditional offer to be able to secure a formal offer of place

DECLINED If you don’t meet the entry requirements or all places are taken, we may offer you an alternative programme

DECISION PENDING We are unable to make a decision just yet, but will let you know when we expect to make a decision

HOW TO APPLY
Below is the step-by-step guide to the applications process. For more information visit www.aut.ac.nz/apply
ENTRY REQUIREMENTS
FOR STUDENTS WHO HAVE COMPLETED HIGH SCHOOL IN NEW ZEALAND

All applicants need to meet AUT’s minimum entry requirements. Because of competition for places, you may need to have more than the minimum entry requirements for admission to some programmes. Entry requirements for each programme you can study at AUT are listed on the AUT website. The information below serves as a guide only.

For more information and specific entry requirements for each programme visit www.aut.ac.nz

University admission for AUT’s bachelor’s degrees

For New Zealand citizens and residents and international students studying in a high school in New Zealand

To gain admission to bachelor’s degrees, you must have met the requirements for University Entrance plus any specific admission requirements for a programme.

You may be granted University Entrance under one of the following categories: NCEA University Entrance, Ad Eundem Statum admission (includes CIE and IB), Discretionary Entrance or Special Admission.

NCEA, CIE and IB requirements are listed below. For other ways to meet University Entrance visit www.aut.ac.nz/universityentrance

If you’ve just missed University Entrance or didn’t get into your chosen degree you could consider enrolling in one of the certificates offered at AUT.

</table>

1. UCAS (Universities and Colleges Admissions Services for the UK) Tariff = system which converts AS and A level grades into points.
2. New Zealand residents who have taken IB but have not been awarded the Diploma may apply for discretionary entrance.
3. IGCSE = International General Certificate of Secondary Education.

Where programmes require a specific subject, it is expected that a student will have achieved a minimum of 14 credits in that subject (unless indicated otherwise).

To calculate your NCEA or CIE rank score use our rank score calculator on www.aut.ac.nz/universityentrance

Certificates and diplomas

Entry requirements for certificates and diplomas vary by programme. You can find specific entry requirements for your chosen programme on our website www.aut.ac.nz

Graduate certificates and graduate diplomas

You generally need to have completed an undergraduate qualification for entry to a graduate certificate or diploma. You can find specific entry requirements for your chosen programme on our website www.aut.ac.nz

Postgraduate programmes

Entry requirements for AUT postgraduate programmes vary. You can find specific entry requirements on the programme page for your chosen programme on our website www.aut.ac.nz

Minimum entry requirements are generally a successfully completed bachelor’s degree in the same area of study from a recognised university. You may also be required to provide evidence of relevant work/research experience.

If you’re planning to undertake a thesis, a research proposal will also be required.

## Graduate certificate and graduate diploma entry requirements

You generally need to have completed an undergraduate qualification for entry to a graduate certificate or diploma. You can find specific entry requirements for your chosen programme on our website [www.aut.ac.nz](http://www.aut.ac.nz).

## Postgraduate programme entry requirements

Entry requirements for AUT postgraduate programmes vary. You can find specific entry requirements on the programme page for your chosen programme on our website [www.aut.ac.nz](http://www.aut.ac.nz).

Minimum entry requirements are generally a successfully completed bachelor’s degree in the same area of study from a recognised university and a recognised English language test that meets the programme language requirements. You may also be required to provide evidence of relevant work/research experience.

If you’re planning to undertake a thesis, a research proposal will also be required.

## Foundation courses

If you don’t meet the entry requirements for our bachelor’s degrees, two foundation programmes are available as an alternative pathway into AUT:

- **The AUT Certificate in Foundation Studies taught by ACG**
- **Auckland Foundation Year (AFY) taught by Taylors College New Zealand**

Both ACG and Taylors College New Zealand are located close to the AUT City Campus.

If you successfully achieve University Entrance and meet any additional programme requirements, you can progress into your chosen bachelor’s degree (the Bachelor of Health Science (Nursing) and Bachelor of Education are exceptions).

**ACG – Academic Colleges Group**

Email: admissions@acgedu.com

[www.acgedu.com](http://www.acgedu.com)

**Taylors College**

Email: anziscqueries@studygroup.com

[www.afy.ac.nz](http://www.afy.ac.nz)

---

1 UCAS (Universities and Colleges Admissions Services for the UK) Tariff = system which converts AS and A level grades into points.
**ENGLISH LANGUAGE REQUIREMENTS**

AUT classes are taught in English. If English, Māori or NZ Sign Language is not your first language, you need to prove you have the minimum level of English for your chosen AUT programme.

We need to assess your level of English to ensure you can succeed in your programme. AUT does not accept responsibility if you fail courses because of a lack of competence in English.

**International students at NZ secondary schools**

If you are gaining University Entrance (UE) through NCEA, IB or CIE, you must meet the UE literacy requirements. You can’t replace the literacy requirements with an English language test result. Some AUT programmes have language requirements higher than UE literacy.

**Students with qualifications from outside of New Zealand**

Applying on the basis of a qualification from another country? Use your official results for one of the following tests or qualifications to meet the English language requirements. Results can be up to two years old.

IELTS (Academic)

Due to professional registration requirements, IELTS is the required English test for most health science degrees and teacher education qualifications. It’s also the preferred English test for all other AUT qualifications. If you gain UE through a NZ secondary school qualification, you can’t replace the UE literacy requirements with IELTS.

Some programmes have higher requirements than the ones listed below.

**Doctoral degrees**

IELTS 6.5 overall with 7.0 in Writing and all other bands 6.0 or higher

*Engineering, Computer and Mathematical Sciences only require a 6.5 Writing Band.

**Other postgraduate programmes**

IELTS 6.5 overall with all bands 6.0 or higher

**Graduate diplomas, graduate certificates and conjoint programmes**

IELTS 6.5 overall with all bands 6.0 or higher

**Diplomas**

Depending on the particular diploma, either IELTS 6.0 overall with all bands 5.5 or higher, or 5.5 overall with all bands 5.0 or higher

**Certificates**

IELTS 5.5 overall with all bands 5.0 or higher

**Other recognised English language tests**

Use the following table to see what you need to meet the English language requirements through the Certificate in English for Academic Study (CertEAS), GIE, TOEFL iBT®, Cambridge English: Advanced (CAE) or the Pearson Test of English (PTE).

Test results shouldn’t be more than two years old. Other recognised tests of English language proficiency may be accepted on a case-by-case basis as agreed by AUT.

1. GIE can’t be used to meet doctoral English language entry requirements.
2. Individual band scores for TOEFL iBT are indicative and variations of up to two points may be accepted, as long as the minimum overall score is achieved.

**English language courses**

AUT School of Language and Culture

If you don’t meet the English language entry requirements for your programme, AUT’s School of Language and Culture offers certificate and diploma programmes to meet entry requirements for further study at university level.

IELTS required: IELTS 5.5 with no band less than 5.0 for Diploma in English Language and Certificate in English for Academic Study. Certificate in English Language students are placed at an appropriate level according to the results of a placement test.

To find out more visit www.aut.ac.nz/languages

**International House**

AUT International House is the English language school for international students at AUT and is located on the City Campus. International House also offers general English language training.

**GIE Academic Pathway**

- Full-time, 23 hours per week, 12-week academic preparation and study skills programme
- Offered three times a year
- Successful completion provides a pathway into a range of AUT programmes (exceptions are degrees requiring board certification on graduation and PhD study)

**International House**

- IELTS entry requirement: 5.5 overall with a minimum of 5.5 in Reading and Writing and 5.0 in Speaking and Listening
- We have additional programmes for students with lower IELTS

You need to be at least 18 years to enrol. There will be an oral and written placement test when you arrive.

INTERNATIONAL STUDENTS: PREPARING TO TRAVEL TO NEW ZEALAND

Scholarships for international students

If you live overseas and are considering university study in New Zealand, you are eligible for AUT scholarships, particularly for postgraduate study. For example, if you are planning to enrol in a doctoral degree you may be eligible for the Vice-Chancellor’s Doctoral Scholarships. Many countries also provide their own scholarship programmes for students to study overseas and you should check the availability of these. The New Zealand Government also offers scholarships for international students to study in New Zealand.

To find out more visit www.aut.ac.nz/scholarships

International student fee payment options

AUT has partnered with Western Union to provide international students with a reliable, fast and secure way for you to pay. This payment method is by telegraphic transfer in local currency where available.

For the full list of payment options visit www.aut.ac.nz/international/payment

International fee refund

If you need to change or withdraw from your programme of study, you may be entitled to a refund. Our friendly Student Hub team can answer any question you may have about refunds or the refund policy.

To find out more visit www.aut.ac.nz/fee-refunds

The Education (Pastoral Care of International Students) Code of Practice

AUT has agreed to observe and be bound by the New Zealand Government’s Code of Practice for the Pastoral Care of International Students.

Copies of the code are available in six languages at www.nzqa.govt.nz/the-code

iStudent Complaints

This is an independent Dispute Resolution Scheme (DRS) established by the New Zealand Government to assist international students with any disputes between them and their providers.

To find out more visit www.istudent.org.nz/about-istudent-complaints

Your student visa

One of the most important steps is to get your student visa organised before you reach New Zealand. Without a valid visa and medical/travel insurance it’s unlawful to study in New Zealand.

To find out more visit www.immigration.govt.nz/new-zealand-visas/options/study/working-during-after-your-study/working-on-a-student-visa

Working in New Zealand

As an international student you can work 20 hours per week during the academic year and full-time during scheduled vacations. Please note that the number of hours you can work during your study will not be enough to fund your studies. Master’s by research and doctoral students may be granted unlimited work rights.

To find out more visit www.immigration.govt.nz/new-zealand-visas/options/study/working-during-after-your-study/working-on-a-student-visa

Medical and travel insurance

The New Zealand Government requires all international students to have appropriate insurance. Most international students are not entitled to publicly funded health services while in New Zealand. If you receive medical treatment during your visit, you may be liable for the full costs of the treatment. That is why it is so important that you have medical and travel insurance while you are studying at AUT.

To make it easy, we include AUT’s default medical insurance, the Studentsafe-University plan, as part of your Offer of Place. You don’t have to accept the AUT insurance policy, and can choose an alternative from an approved provider on our website.

To find out more visit www.aut.ac.nz/international/insurance

Living costs

If you are coming to New Zealand on a student visa, Immigration New Zealand requires you to have NZ$15,000 available plus an additional NZ$2,000 to cover a return ticket home. You will need more than this to adequately cover your living costs. Living costs can vary considerably depending on your lifestyle.

5 OUT OF 5 FOR
Cost is an important factor when thinking about university study. Visit our website www.aut.ac.nz/fees to get an idea of the approximate tuition fees at AUT, and different options to help you fund your education including scholarships, student loans and allowances.

The 2019 tuition fees will be advertised on www.aut.ac.nz/fees as soon as they have been set.

Free fees for your university study
New government policy means that eligible domestic students starting tertiary education receive one year of full-time study fees-free¹.

To check if you're eligible for fees-free study in 2019 visit www.aut.ac.nz/fees

1. Domestic students only, not available to international students.

Student loans and allowances¹
If you are a full-time domestic student, you may qualify for a student loan or allowance. Student loans and allowances are administered and paid by StudyLink. The application process can take some time, so it's a good idea to apply early. You can apply for a student loan or student allowance before your enrolment at AUT is complete.

Call 0800 88 99 00 or visit www.studylink.govt.nz

1. For domestic students only, not available to international students.

Help with planning and budgeting
We know that sometimes things happen and financial stress can impact your academic success. That's why we offer financial support that ranges from offering grocery or fuel vouchers, to helping with that unexpected bill.

Scholarships and awards
Scholarships and awards are a great way to fund your university study. There is a wide range of scholarships and awards available to AUT students at all stages of their study. Visit the scholarships website for a current list of scholarships offered by AUT and external funders, as well as application forms and closing dates.

You can also contact AUT's Scholarships Office for advice on scholarships, awards and the scholarship application process.

Call +64 9 921 9837 or visit www.aut.ac.nz/scholarships
